ReadSpeaker
THE POWER OF **SPEECH**

A LEADER IN TEXT-TO-SPEECH TECHNOLOGY

Since 1999, ReadSpeaker has helped millions of users listen to content as they read. UDL is a set of principles for curriculum development that give all individuals equal opportunities to learn. ReadSpeaker actively supports UDL, stimulating interest and motivation for learning by providing different ways of accessing content.
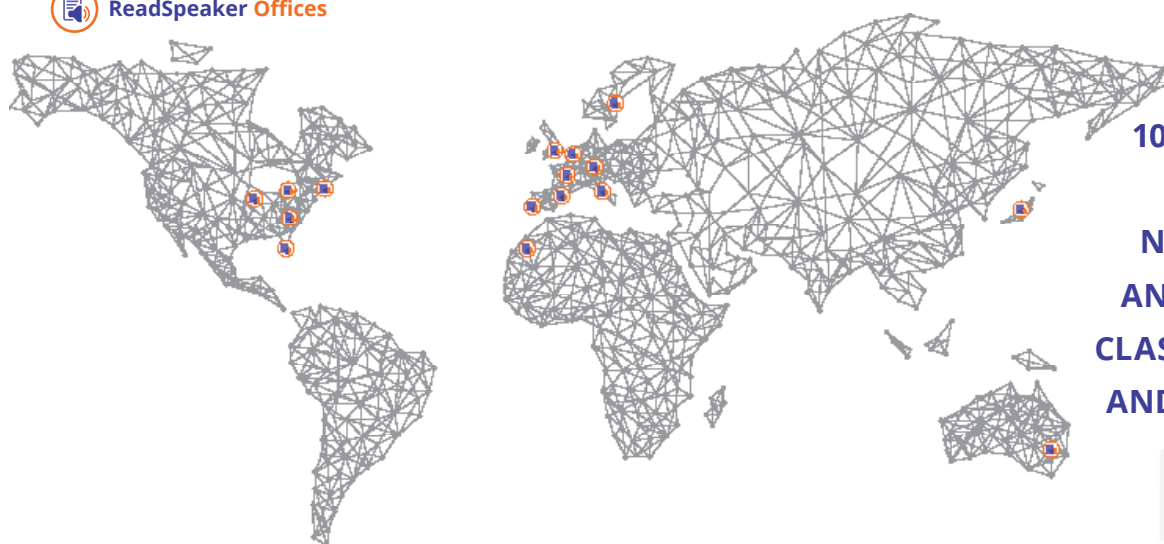

EASY TO IMPLEMENT, EASY TO USE TEXT-TO-SPEECH TECHNOLOGY WITH ANYWHERE, ANYTIME ACCESS.

Our integrated read-aloud solutions for leading LMS systems require no downloads, providing the solution anywhere, anytime and on any device.

ReadSpeaker believes that technology enhances the learning experience and is an invaluable tool to help students achieve academic success, which leads to fulfilled lives. We strive to make our technology easy to implement and easy to use for individuals, teachers, institutions and publishers. From K12 to universities, for struggling readers, language learners, and continuous education, the ReadSpeaker team is dedicated to developing the best in read-aloud technology.

Listen to an audio version of any written content while following along with the highlighted text. Request a free demo at: www.readspeaker.com

**100% WEB-BASED,
MEANS
NO DOWNLOADS
AND ACCESS IN THE
CLASSROOM, AT HOME
AND ON ANY DEVICE.**

The Suite of ReadSpeaker Education Solutions
Developed with students', parents' and educators' needs in mind.

Speech Enabling and Text Highlighting	ReadSpeaker Enterprise Highlighting	Learners better understand online text by speech-enabling and highlighting it at the same time with this integrated read-aloud solution for leading LMS systems.
Document Reader	**ReadSpeaker docReader**	Students can view and listen to a variety of document formats, on any device, and with no plug-ins required.
Speech Enabling Apps	ReadSpeaker speechCloud API	Speech can be added to mobile apps making content available to learners in a convenient, easy-to-listen way.
Accessibility	**ReadSpeaker Narrator**	Accessibility of educational books and documents is enhanced for a better reading experience.
Speech Production	**ReadSpeaker Text-to-Speech Production API**	Educational text is converted into high-quality audio for producing audiobooks or digital talking books.
Tools For Struggling Readers and Language Learners	ReadSpeaker TextAid	Students can read, write, research and study all in the same easy-to-use web tool especially designed for struggling readers and language learners.

"

The Virtual High School Ensuring that our courses are both multimedia rich and suitable for all learners is something that is central to our mission. ReadSpeaker was a natural fit because it gives all of our students an audio option. ReadSpeaker's integration with the D2L Learning Environment made it easy for VHS to implement the browser-based solution. Within seconds, the organization enabled it on a course level and within all lesson documents so VHS students can have all course web pages and documents read to them with one click of a button. Since implementing the technology, we've been encouraged by how popular it's been."

- Storie Walsh, Director of Instructional Technology
